OVERVIEW

2023 the International Conference on Digital Contents: AICoM(AI, IoT, Contents and Metaverse) Technologies (DigiCon-23) will be held in Jeju, Korea, December 18 ~ December 20, 2023. DigiCon-23 will be the eighth event of DigiCon conference series which is hosted and organized by the Korea Digital Contents Society (K-DCS).

Digital Contents become increasingly important not only in industry but also in our life. It is being used in entertainment, education, arts, and various cultural areas. Today, Creative Digital Content technologies with Smart Media, Arts, and Cultures areas lead to new world. Fortunately, Digital Contents: Smart media, Arts & Culture Technology is nowadays considered as a serious academic domain and the number of researchers studying these topics is rapidly increasing.

The DigiCon-23 international conference is an excellent opportunity to discuss and explore areas related to the [Digital Contents: AICoM(AI, IoT, Contents and Metaverse) Technologies] with fellow students, researchers, and practitioners from academia and industry working in all areas of Digital Contents Technology and its Applications.

The purpose of this conference is to bring together academic and industry researchers, designers and developers, etc., to address and advance the research and development issues related to digital contents.

The DigiCon-23 is the very next event, in a series of highly successful International Conference on Digital Contents: AICoM(AI, IoT, Contents and Metaverse) Technologies, previously held as DigiCon-22 (Jeju, Korea, 2021), DigiCon-21 (Jeju, Korea, 2021), DigiCon-19 (Daegu, Korea, 2019), DigiCon-18 (Jeju, Korea, 2018), DigiCon Workshop 2016 (Danang, Philippine, 2016), DigiCon Workshop 2015 (Seoul, Korea, 2015), DigiCon Workshop 2012 (Pyungchang, Korea, 2012).
